¹ Annual General Meeting of Shareholders in the year shown

The Board of Directors, which – according to the Articles of Association – consists of between 5 and 13 members, currently has 11 members. Three members of the Board of Directors are executive members. However, none of them also serves on the Group Executive Committee. Silvio Napoli and Karl Hofstetter are members of the Supervisory and Strategy Committee. Tobias B. Staehelin holds an operational function at a Group company. The eight remaining members are non-executive members of the Board of Directors.

Front row, from left: Alfred N. Schindler, Silvio Napoli, Prof. Dr. Pius Baschera,
Prof. Dr. Monika Bütler, Tobias B. Staehelin
2nd row, from left: Carole Vischer, Dr. Rudolf W. Fischer, Anthony Nightingale
3rd row, from left: Patrice Bula, Prof. Dr. Karl Hofstetter, Luc Bonnard

With the exception of Alfred N. Schindler, all non-executive members of the Board of Directors are independent according to the definition set out in the Swiss Code. Hence, in accordance with the recommendations and criteria set out in the Swiss Code, the majority of the Board of Directors – i.e. 7 of its 11 members – is independent. The Board of Directors comprises both male and female members.

In terms of the composition of the committees of the Board of Directors, the company deviates from the recommendations of the Swiss Code. This is mainly due to the fact that major shareholders have their own representation on the Board of Directors, allowing them to safeguard their long-term shareholder interests directly.

The Board of Directors oversees the Group Executive Committee and supervises its work. The Schindler Group has at its disposal a comprehensive electronic management information system (MIS). The Board of Directors receives a report at least each quarter. The Supervisory and Strategy Committee is informed in detail each month about financial and operational developments. At least once annually, the Board of Directors and the Group Executive Committee hold a joint meeting.

Schindler defines and evaluates the most important risks facing the Group in a four-phase process based on a detailed risk catalog. These risks are divided into the categories of product, market, and business risks; financial, operational, and organizational risks; and safety, health, and environmental risks. Legal aspects are also evaluated for all risk categories. The four phases of the process are as follows:

- Each Group company creates a risk matrix as part of its budget process
- The risks are combined within a Group matrix and evaluated in detail by an interdisciplinary Risk Committee comprising the responsible heads of the product groups and Group staff offices. Based on the evaluation, a detailed catalog of measures to address the most important risks is presented to the Group Executive Committee
- The Group Executive Committee evaluates the risk matrix and the proposed catalog of measures and proposes any additions
- The most important risks, along with possible measures to prevent and minimize potential harm arising from them, are presented to the Board of Directors for appraisal
