**Schindler**

# Free your imagination

A groundbreaking innovation,  
catered to your creative vision.  
Meet the Schindler X8.

Schindler X8 ushers in a new era in vertical mobility, where high-end design meets groundbreaking technology to redefine how new construction and renovation projects are approached. Instead of designing around the elevator, Schindler X8 adapts seamlessly to your architectural vision. Breaking free from traditional

constraints, it requires neither pit, headroom, nor concrete shaft, while operating on a standard power supply. Aesthetically, Schindler X8 comes in six meticulously crafted interior configurations, each thoughtfully designed to harmonized with diverse architectural environments. This isn't just an elevator – it's the dawn of new architectural freedom.

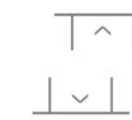

Freedom in integration

# Why choose Schindler X8?

Schindler X8 lets architects and designers unleash their creative vision. The streamlined process from configuration to installation provides unprecedented flexibility and speed to your project.

 Are you specialized in **refurbishing projects**?  
Or in **new residential buildings**?

Let's talk about your prestigious project together:

## No head. No pit.

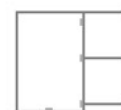

Experience the next generation of elevator design: Schindler X8 needs no pit and no head, drastically reducing the space needed to fit the elevator and allowing it to be installed where no other elevator could.

# A perfect match for your design A process matching the speed of your project

---

Intelligent product and manufacturing design allows for streamlined processes with your schedule in mind. The total time required for production, delivery, installation and handover of the Schindler X8 can be minimized to 3 weeks.

# A new innovative approach Enabling more sustainable constructions

---

Not needing a structural hoistway allows the use of alternative materials to cover the elevator. For example, instead of concrete, wood can be used for the shaft closing, which can reduce the overall CO<sub>2</sub> that is embedded in the material used for construction.

Schindler X8 has the highest energy efficiency ratings (A-class according ISO 25745-2) by using latest regenerative drive technology, LED lights and smart standby management.

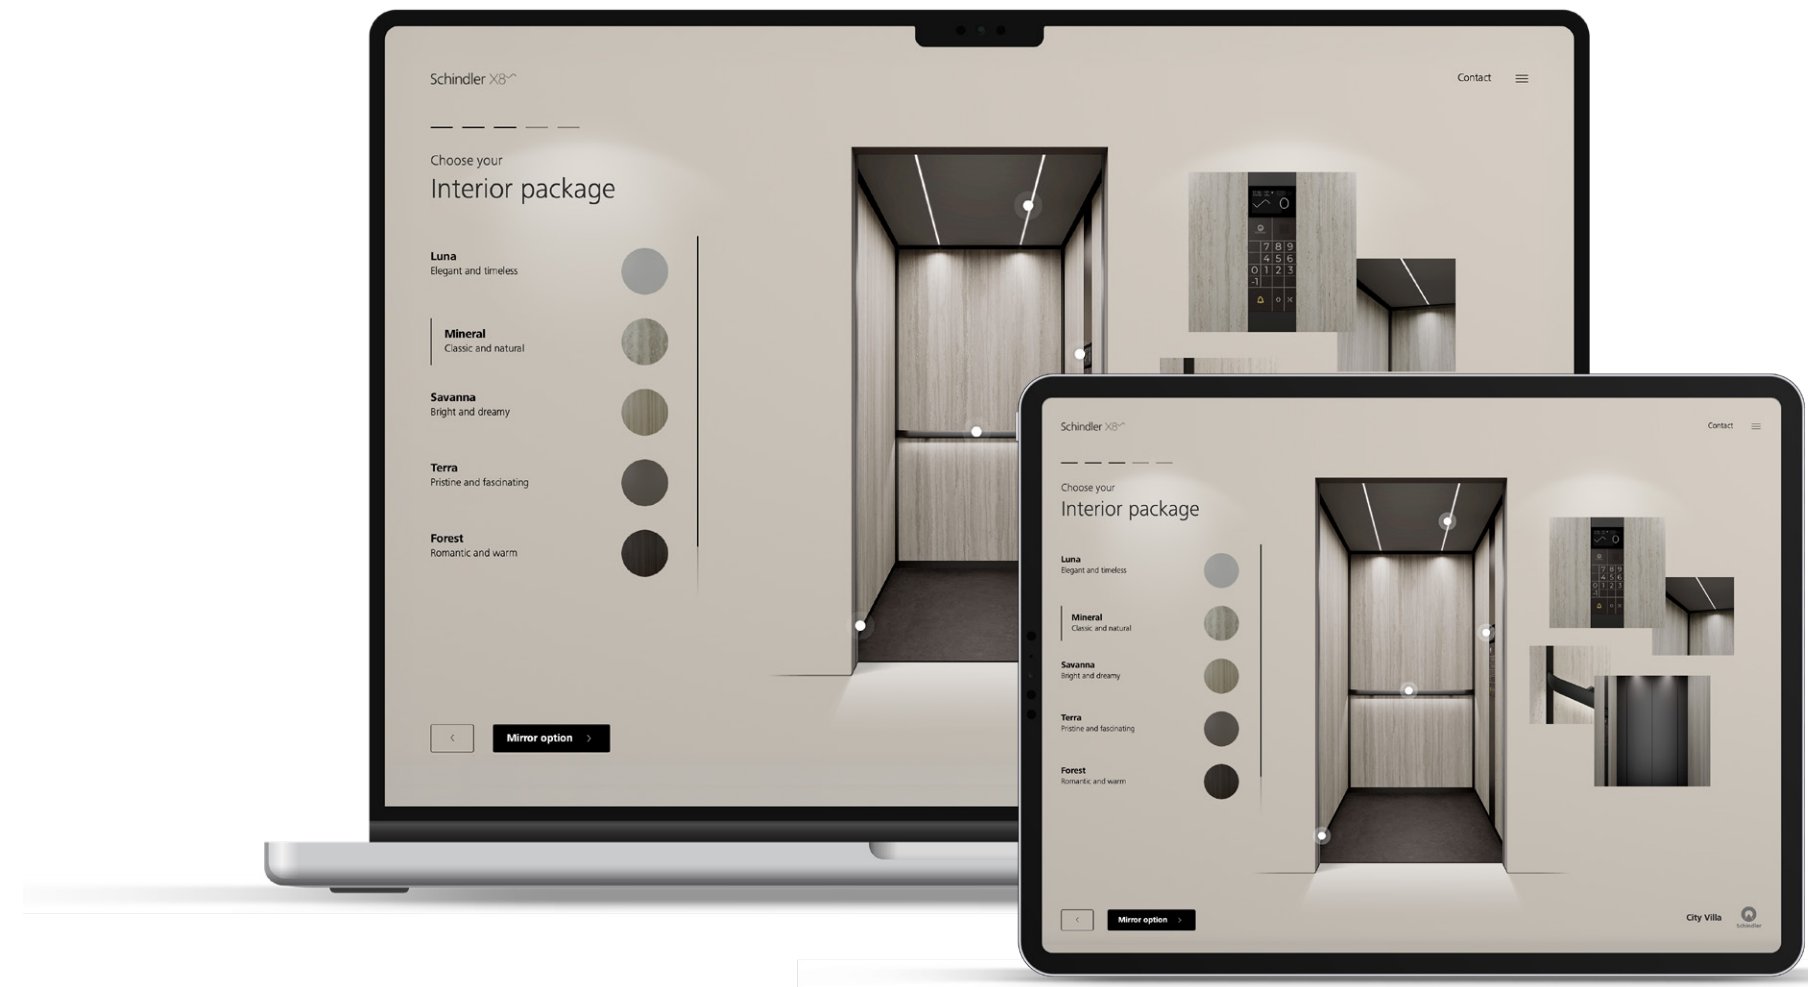

# Configure it in five minutes. Admire it every day

---

The new Schindler X8 comes with a completely new configuration experience. Smart, simple and fast. Simply head to the website, choose the door option and interior finishing that best fit your project. Just a few clicks, and in five minutes your order is sent to our team for processing.

Schindler X8 collection

# A look for every space

---

Schindler X8 comes in six distinct interior designs.  
Each draws inspiration from nature, incorporating textures  
and colors to create a unique atmosphere.  
All six designs are available in a full-mirror, half-mirror,  
or no-mirror configuration.

Luna  
a timeless  
and refined look

Mineral  
an open  
and natural feel

Savanna  
a bright  
and earthy space

Terra  
a sleek  
and fascinating aesthetic

Forest  
a warm  
and rich ambience

Volcano  
an intense  
and modern finish
